EDLESS THEMES
Installation Guide

Instructions

Step1. Download a new theme from the website
http://www.endless-online.com/themes.html

Step2. Locate the downloaded zip file in the
download folder of your browser.

Step3. Extract the zip file inside **gfx/themes**
of the endless game client.

Make sure this is
unpacked inside /gfx
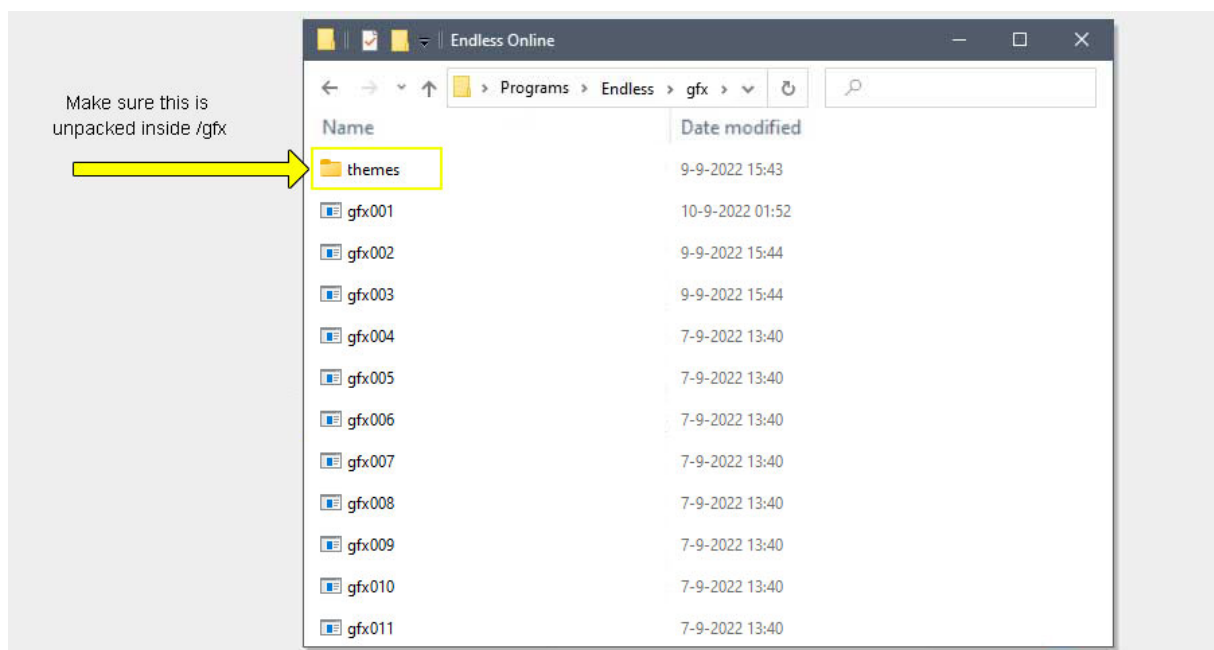

make sure the theme files are placed **inside** the theme folder

Step 4. Launch the Config (Econfig.exe) located in the same folder of your endless game client.

Step 5. Hit the **change theme button** and select the name of your new installed theme.

Step 6. Click **Save Configuration**, to complete.
